**Supplemental Pain Management Program**

The past decade has seen great advancements in pain management in Veterinary Medicine. We at Ark Animal Hospital would like to offer our surgery patients this benefit and provide post-operative pain relief. For any of our surgery patients we do recommend pain management. For cats this includes an injection, for dogs this includes an injection and four days of oral medication. For more involved procedures stronger drugs may be used. One of these drugs, the Fentanyl Patch gives three to four days of pain relief. With your permission it can be applied prior to your pet's routine surgery to provide enhanced pain control during the post operative period. **All pain medication is at an additional cost:**

**CHOOSE ONLY ONE**

- Cats: ( ) Pain Injection \$20.40**
- ( ) Fentanyl Patch \$44.00**
- Dogs: ( ) Pain Injection & Oral Medication 0-25 \$20.40**
- ( ) Pain Injection & Oral Medication 26-50 \$26.00**
- ( ) Pain Injection & Oral Medication 51-75 \$36.50**
- ( ) Pain Injection & Oral Medication 76-100 \$47.50**
- ( ) Pain Injection & Oral Medication >100 \$58.00**
- ( ) Fentanyl Patch 0-25 \$44.00**
- ( ) Fentanyl Patch 25-50 \$64.50**
- ( ) NO, Do not use pain management for my pet.**

\*Application of the Patch involves shaving a 2-3" area on the side of the chest behind the shoulder blade. This hair will grow back at the same rate as the hair shaved from the surgery site. The patch will be removed at home after 4 days and flushed away.
